

EPS Report

August 2016

Earnings Growth Drives Share Prices and Dividends: Over time it is the upward trend of earnings per share that drives the share price. Assuming a stable payout ratio, it also drives growth in dividends. But EPS does not have to grow every year. Isolated short dips followed by growth afterwards can provide excellent buying opportunities.

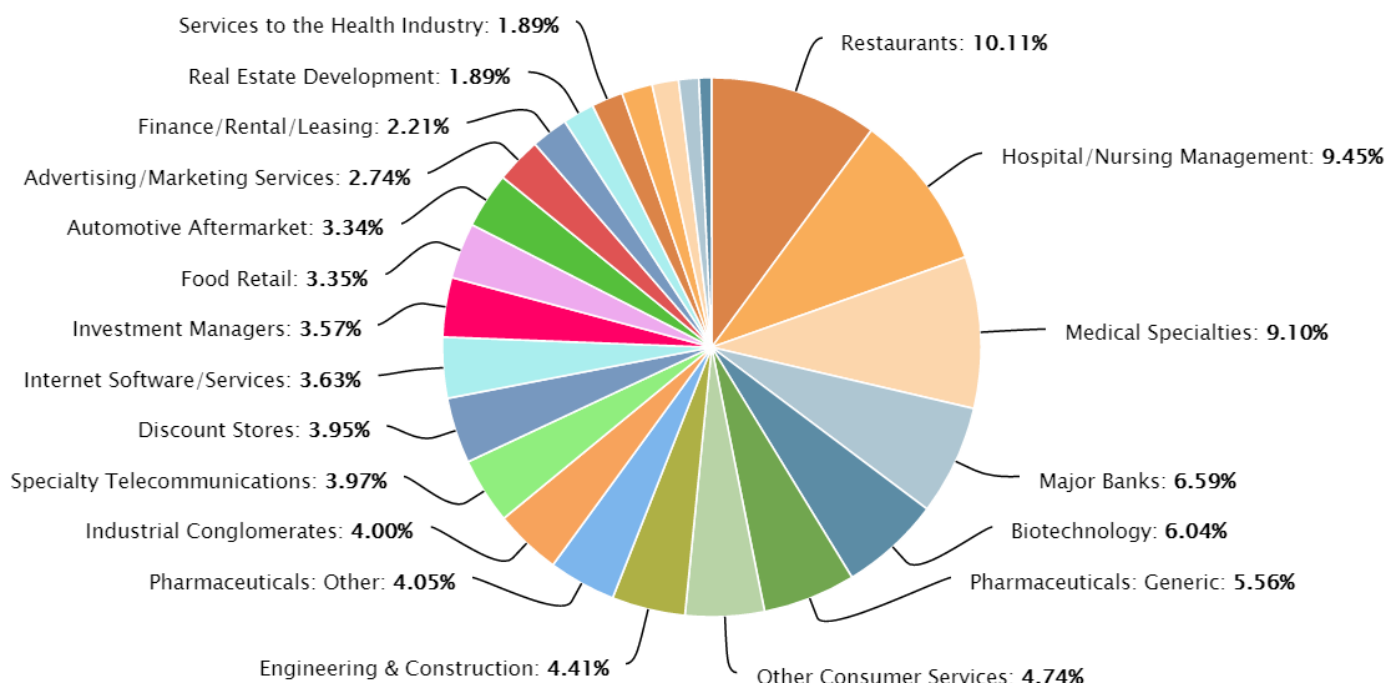

A useful indicator of EPS growth is return on equity (ROE): high and consistent ROE generally indicates healthy EPS growth or a healthy dividend yield.

The following table gives the weighting, ROE and growth results for earnings per share for the largest ten holdings in the Conscious Investor® Fund. In the past two months Sirtex has entered the top ten holdings. Internal changes include FLT increasing two places and BKL dropping two places.
